INOVA® BOLT® 2L

The workhorse of the Bolt Series, the INOVA Bolt® 2L leads the way in power and performance. Made to withstand the harsh irregularities of rough environments down to the last detail, the Bolt 2L has a precision machined, aluminum body with a comfortable non-slip rubber grip, and is geometrically designed to prevent rolling. Its patented optical system and precision machined aluminum reflector with thermal management interface provides a focused spot with flood beam pattern that projects light out to 344 feet. Powered by 2-123 lithium batteries, it measures just 6" in overall length—a must-have for trained professionals who demand best-in-class from their equipment.

LITHIUM POWERED LED FLASHLIGHT

MAX OUTPUT

120 LUMENS

Model #: BLT-2L

FEATURES:

- High-Powered, Energy-Efficient Lifetime LED
- Precision Machined Aluminum Body
- Graphite Anodized finish
- Non-Slip Rubber Grip
- Patented optical system and precision machined aluminum reflector with thermal management interface
- Lumens: 120
- Run time: Up to 3 H 50 Mins
- Effective Range: Up to 105m (344ft)
- Signal Visibility: Up to 2.5 Miles
- Battery Type: 2-123 Lithium Batteries Included
- Dimensions: (Length x Diameter): 6.0" (15.2cm) x .95" (2.4cm) 1.1" (2.8cm) head diameter
- Weight: 4.66oz. (132g)
- Try me packaging - allows for lighting demonstration
- Limited Lifetime Warranty USA

ANSI/NEMA FL1 STANDARDS
